

Providing manufacturing business intelligence to your mobile workforce

ANY DEVICE

OpsTrakker is an integration platform for multiple mobile devices such as ruggedized Windows Mobile Scanner, iPad, iPhone, Blackberry, Android, Tablet PC, and laptops.

ANY SYSTEM

OpsTrakker gives manufacturing direct, real-time integration to your ERP, MES or LIMS system for near real time data verification and status updates.

ANY BUDGET

OpsTrakker modular design provides high value Manufacturing Execution functions without the high project risks, long deployment schedule, and huge costs associated with large MES implementations.

Partner with EIS to implement MES solutions that work for you

- MES Consulting
- Software Validation
- Systems Integration
- Business Intelligence
